

**PRE-DESIGN PHASE  
(PLANNING LOCALISATION)**

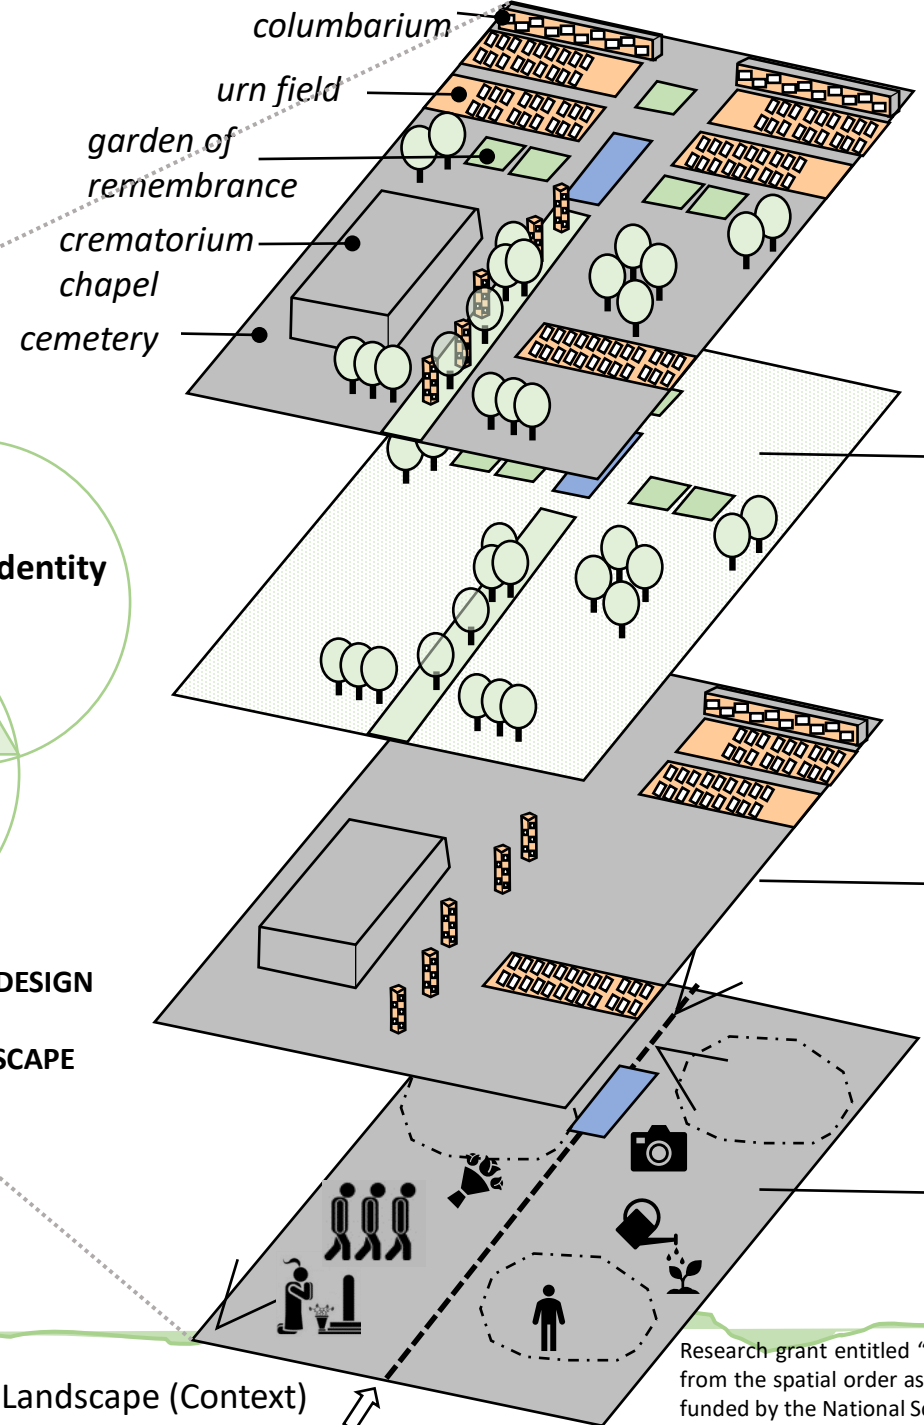

**CRITERIA OF CEMETERIES LOCATION**

- SPATIAL
- LEGAL
- ENVIRONMENTAL
- SOCIO-CULTURAL
- LANDSCAPE AND AESTHETICS

**DESIGN PHASE**

**PRINCIPLES OF CEMETERIES DESIGN AND INTEGRATION WITH LANDSCAPE**

**Cemetery space**

- Contemplative space
- Remembrance and gathering space
- Built structures
- Interment
- Plantings, ground maintenance

**Natural space**

- Vegetation (arrangements of greenery)
- Water/pool

**Built space (architectural approach)**

- Interment (columbarium, urn fields);
- Building (crematorium, chapel);
- Routing, parking;
- Entrance, fence

**Sense of place**

- Archetypal design elements
- Composition
- Meaning/ character of the cemetery

Landscape (Context)

Research grant entitled "Planning cemeteries in the existing urban and rural structures in Poland, seen from the spatial order aspect, against the background of the contemporary European sepulchral space" funded by the National Science Center. Head of the research project: Anna Długozima
